

Monitor Audio Ceiling speaker

C165

Monitor Audio C165 ceiling speaker

We invest as much care, expertise and research in the smallest loudspeaker as we do in the grandest. Irrespective of architecture or interior design, Monitor Audio's range gives you the freedom to supply high quality sound from a versatile mix of floor, stand, wall and flush-mounted speakers. The C165 is a brilliant little in-ceiling speaker which is easy to install and has a clear, dynamic performance worthy of the brand. As part of the 100 Series of architectural speakers, it offers the biggest bass driver size of any speaker in its class, providing a convincing full-range sound in a wide range of locations.

Specification:

Product review: SMCCI

The C165 has become the bench mark for all our in-ceiling speaker installations. The build quality of the C165 is unprecedented at this price!

Positive:

- Very natural sounding speaker
- Great level of adjustment via a pivoting tweeter and + / - switch
- Price

Negative:

- Requires good quality amplification
- Larger than average depth

Price:

C165 Price per pair	£180.00
